## Library Service in Ontario

Excerpts from remarks by the Honourable Robert Welch, Minister of Culture and Recreation to the Provincial Municipal Liaison Committee, Friday, October 21, 1977

I am appreciative of the time that has been taken by the Association of Municipalities of Ontario and the Municipal Liaison Committee considering library matters and making specific recommendations for improvements. I have your recommendations before me, and also recommendations of the Ontario Provincial Library Council, which is the advisory group to the provincial government on libraries under the Public Libraries Act.

I am pleased to note that you are supportive of the regional library systems in Ontario, and recommend that "regional library systems continue, possibly at a higher rate of funding". The Library Council is also supportive of the regional library systems, and this is one area of agreement between the MLC and Library Council. There also appears to be broad support for the increases in grants to regional library systems this year, especially for northern Ontario. I announced the grants in January in an address to the Library Council. I said that "apart from Wintario, we expect to provide \$22,000,000 to libraries this year — an increase of more than 10 per cent during a period when government spending has never been so constrained."

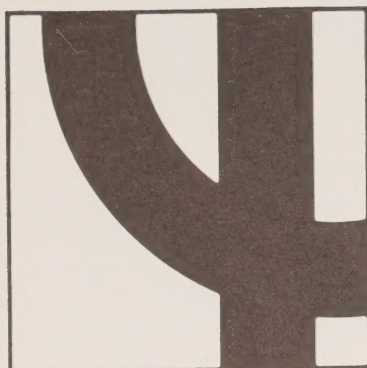

Since that time there has also been a decisive increase in Wintario funding to libraries, which in this fiscal year could reach \$4,000,000 including capital grants. I am particularly happy to see Wintario funding going to increase the purchases of Canadian books, films, and other materials in our libraries. I think that these positive developments are strongly supported by all of us: in the municipal councils, in the library community, and of course, in our Ministry and the government of Ontario.

You have recommended that library grants, except for regional funding, be deconditionalized. This recommendation is under study by the Grant Reform Committee. Personally, I have serious reservations about the deconditionalization approach at this time, although I appreciate your viewpoint. Needless to say, the Library Council and the library community generally are opposed to deconditionalization. At the present time the Treasurer and I have agreed that grants to library boards be continued in 1978-79, with no change in the grant formula in the regulation under the Public Libraries Act. This will give us time to give the question further study, examine what the Grant Reform Committee
